1.0 FOREWORD

ICT is a major contributing factor towards the success of higher learning institutions. Operations of Information and Communication Technology (ICT) services can be enhanced through the establishment, operationalization and extension of ICT enabled functions within a clear policy framework that takes full cognizance of the institution's overall strategic goals.

Towards achieving her vision and mission, Kirinyaga University recognizes and upholds the critical need of ICT and this policy is intended to enhance ICT Services and facilities, ensuring the availability and integrity of information assets and supporting infrastructure.

This policy document will serve as a commitment of Kirinyaga University and guide to integrate and structure development, deployment and management of modern ICT services.

Prof. Mary Ndung'u

Vice Chancellor, Kirinyaga University
